

Brain Chase Virtual Camp

New this year, we are offering Brain Chase an 8-week virtual camp program (with week by week options) that provides online camp in a unique and engaging way.

Your child will work as a team with other campers to conquer a total of eight escape rooms. Campers will solve a new mystery each week by advancing through a series of interactive rooms. To escape, the team must click on objects that will give them codes, questions, and clues to help them advance while learning new material and practicing skills they've learning throughout the school year.

To keep up with the group escape room challenges, each team will need to stay sharp by completing three elective challenges each day in topics like engineering, art, sports, reading, photography, science, writing, math, cooking, typing, and yoga.

Brian Chase at **Chesterbrook Academy** is a fun alternative to traditional day camp where students can continue to learn and engage with friends throughout the summer months.

Sample Daily Camp Schedule	
8:30am	Welcome!
9am	Break-out sessions: Escape Room puzzle
10am	Personal Electives (i.e., Engineering)

Brain Chase Virtual Camp

Place an X in the boxes for the weeks attending Brain Chase

June 22nd Escape from Mt. Everest

Was George Mallory really the first to summit Mt. Everest? To find out, we'll need to recover his missing camera – and live to tell the tale! Learn more about the earth's tallest mountain, the basics of orienteering, and some of history's bravest adventurers.

ELECTIVES: Art, Photography and Reading

July 20th The Ivory Queen

A missing chess piece. A mysterious coffee shop. A jungle full of perilous traps. To find the prize, you'll need to learn about the rules and history of chess, and match wits against some of the world's best players.

ELECTIVES: Art, Photography and Reading

June 29th (ONLY 4 days CLOSED July 3rd) The Tomb of Nefertari

Journey to Egypt in a perilous quest to recover the missing Senet board of Queen Nefertari! You'll travel from a ransacked archive room to the busy streets of Cairo, then deep into the tombs of Egypt's ancient rulers. It's a race against time to escape with the prize!

ELECTIVES: Cooking, Engineering and Fitness

July 27th The Quill of Beethoven

What happened to the feather quill that penned Ode to Joy? Time to become an expert on Beethoven, his works, his contemporaries, and his instruments.

ELECTIVES: Cooking, Engineering and Fitness

July 6th The Dairy of Jane Austen

Did Jane Austen really carry on a forbidden romance with Jedediah Grayson? The answer lies hidden with a missing manuscript, and only Austen's personal diary will help you locate it. To solve the mystery, become familiar with the life, times, and works of one of the world's best-respected authors.

ELECTIVES: Coding, Gardening and Martial Arts

August 3rd The Sword of Agamemnon

An ancient rivalry between famed adventurer Tate Grayson and fellow explorer Heinrich Shliemann leads to the disappearance of a priceless artifact. It's time to put the past to rest – but to do so, you'll need to brush up on the Olympics, Greek mythology, and many more ancient Greek contributions to the modern world.

ELECTIVES: Coding, Gardening and Martial Arts

July 13th Escape from the Smithsonian

Dinosaurs, gemstones, and whales... oh my! This race through one of America's most treasured museums will put your scientific knowledge to the test. Will you escape and catch the bad guys?

ELECTIVES: Typing, Writing and Yoga

August 10th Locked in the Louvre

To escape from one of the world's most famous museums, you'll need to learn some art history, become familiar with different mediums, and gain an appreciation for the landmark itself.

ELECTIVES: Typing, Writing and Yoga
